### A Story

Last Tuesday morning, when Mary was having her English lesson, she was sleepy and tired. So she fell asleep. At that time, her teacher, Miss Ho, was telling a story about Princess Kate. After a while, she saw Mary was sleeping. She was very angry so she shouted, 'Wake up, Mary. Don't fall asleep!' But Mary couldn't listen because she was dreaming in the lesson.

In the dream, Mary was playing on the grass with her best friend Kitty. Then they saw three princesses. They were talking at that time. Mary wanted to know them, so she asked Kitty, 'Who is Princess Kate?' She answered, 'The Princess with the curly long hair. She is wearing the biggest crown. The two princesses beside her are Princess Judy and Princess Sally. They all wore pretty golden crowns.

Suddenly, they heard some sounds 'Ling - ling'. It was the sound of the prince's horse. The three princesses ran excitedly to the prince. Suddenly, Princess Kate dropped her necklace on the ground but she didn't notice that. Mary quickly picked it up.

Then Mary ran after Princess Kate. She yelled loudly, 'Princess Kate! Wait! You dropped your necklace!' Princess Kate heard what Mary said, so she turned back. When she saw Mary, she replied, 'Oh! Thank you, Mary. You are such a good girl!' Mary smiled and said, 'You're welcome!'

After five minutes, Mary and Kitty saw the handsome prince. When they wanted to talk to him, they heard a sound 'Knock - knock'. Mary woke up from the dream. Miss Ho knocked on her desk and punished her. Mary felt regret and was sad, so she said sorry to Miss Ho. Miss Ho accepted Mary's apology and forgave her.

## Our Travel Experiences

Today we did a survey on our travel experiences. Here are our findings.

According to the class survey, all of us have travelled outside Hong Kong. One of us has travelled outside Hong Kong only once. Most of us have travelled outside Hong Kong more than five times.

We also found out which places our classmates have visited. The most popular place is Mainland China. We have also been to Japan, Singapore, Taiwan, Korea, Malaysia, Europe and the USA.

### Our group findings

For my group members, I have found out the following information.

**Myself:** I have travelled outside Hong Kong more than five times. My favourite place I have visited is the UK. When I was nine, I went to the UK during my summer holidays. I went sightseeing and ate local food there.

I visited more than four museums, such as the Science Museum, Natural History Museum, National Gallery and London Transport Museum. These museums were all brilliant! My favourite one was the British Museum because it displayed a lot of valuable exhibits from different countries and different times such as the mummy exhibit from Egypt. It was so scary but it was interesting and educational.

**My classmates:** Wincy and Katniss have travelled outside Hong Kong more than five times. Their favourite place that both of them have visited is Japan. In Japan, they both went to the theme park and ate local food. While Wincy went shopping, Katniss went skiing.

Wherever we go, we love travelling because travelling is amusing and we can learn a lot of things from every trip.
