

My Dream Job

When I grow up, I want to be a fashion designer. I think it is a very interesting job.

I want to be a fashion designer because I like drawing. I like to read books about designing and designing clothes. I want to design things when I grow up.

If I become a fashion designer, I will design interesting and beautiful clothes. If I become famous, reporters will interview me and take photos of me. I will appear on TV and in newspapers. Then there will be lots of models wearing the clothes that I design.

Fashion designers need to be creative, so that they can design interesting clothes. They need to be hard-working too because they need to design lots of beautiful clothes.

I am going to study hard so that my dream can come true. I am going to read more books about design. I am going to draw more because I need to improve my drawing. I am also going to join more clothing design classes so that I can learn more about clothing.

I hope I can be the best fashion designer in Hong Kong. I will try my best to make my dream come true.

My Dream Job

When I grow up, I want to be a doctor. I first learnt about doctors in newspapers. It was an article about a doctor who went all over the world to save people. I think it is a meaningful job.

I want to be a doctor because I like helping people. I like human bodies too. I want to know more about cancer when I grow up.

If I become a doctor, I will save and help people in need. I will know more about cancer and find out ways or medicine to defeat cancer because lots of people are suffering. I will go to places such as Africa to cure people because a lot of people are poor and they don't have enough money to visit the doctor, so lots of people die. I will help people all over the world and I will be famous.

Doctors need to be caring so that they can take good care of patients. By the way, they need to be calm so that they never get nervous in an emergency. They need to be outgoing so that they can communicate well with the patients.

I am going to read more books about how to become a doctor. I am going to study hard so I will get a medical degree. I will read a lot to gain more knowledge too.

I hope I can help more people around the world. I will try my best to make my dream come true.
