Journal 6

I liked this Easter Holiday very much. Do you know why? It is because I had a lot of birthday parties.

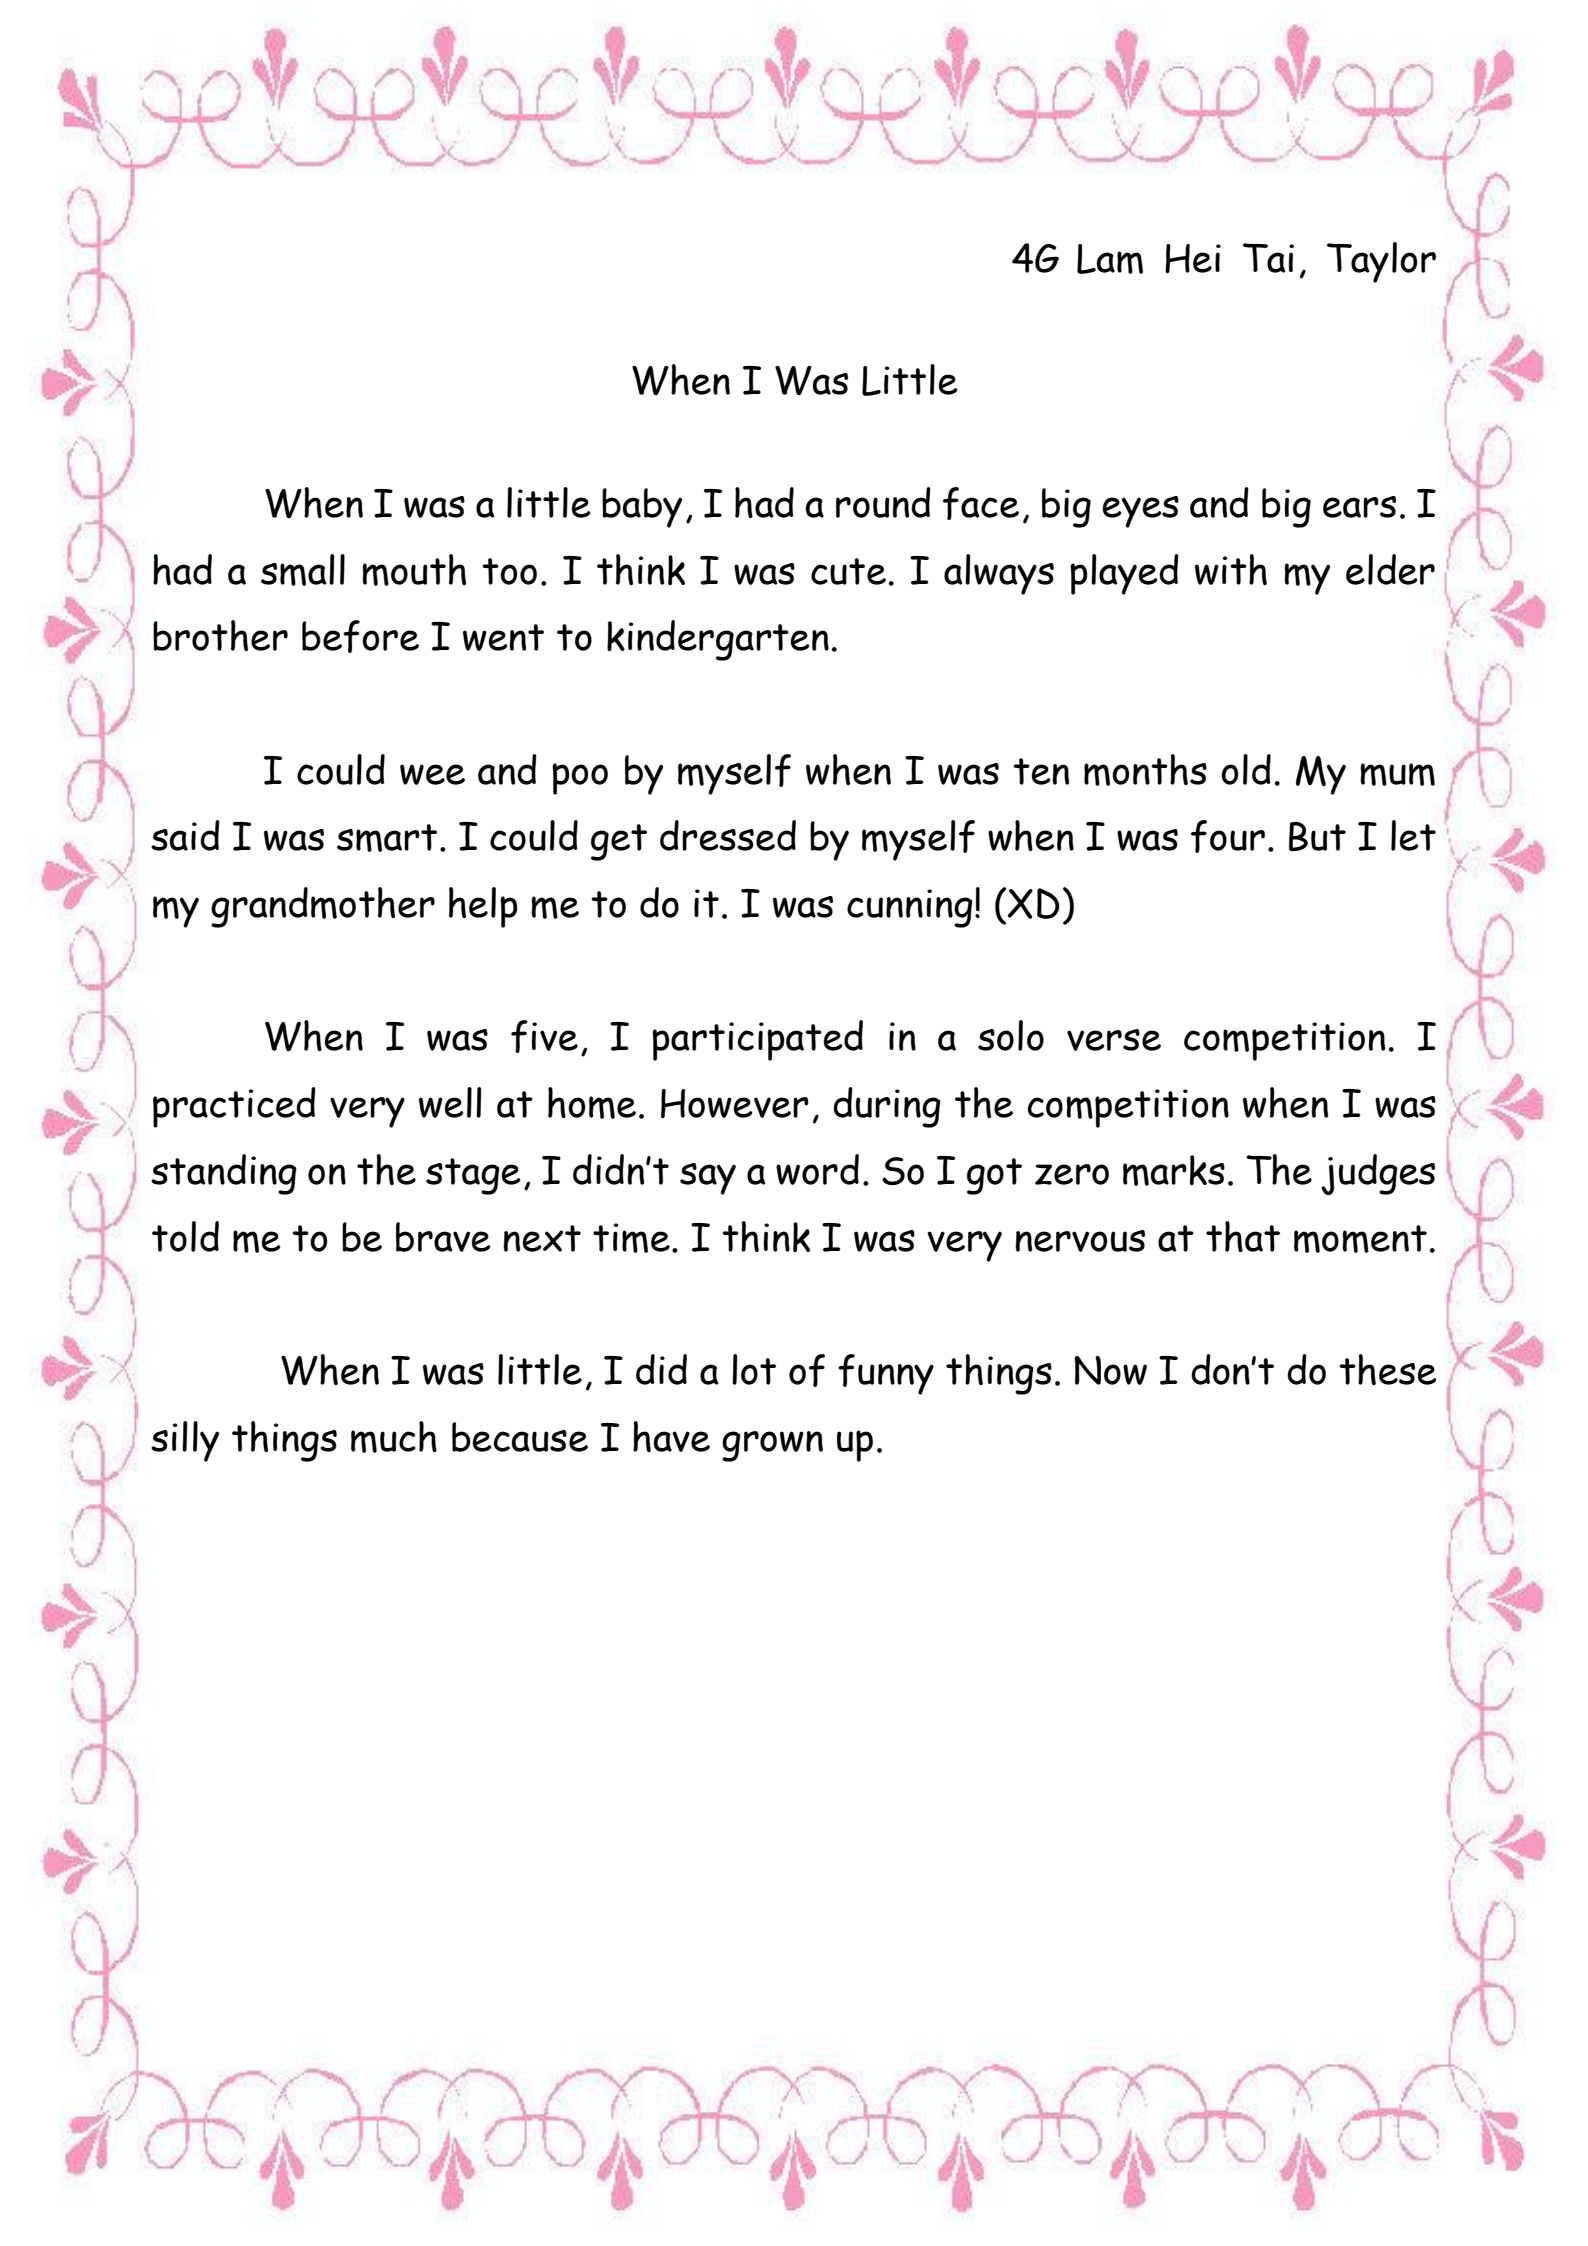

On 3<sup>rd</sup> April, I have my first birthday party. My dad and my mum made me a birthday cake.

On 5<sup>th</sup> April, I have my second birthday party. My kindergarten best friends celebrated with me.

On 6<sup>th</sup> April, my dad and my mum told me we were going hiking, but in fact they booked a hotel room to celebrate with me.

On 7<sup>th</sup> April, we went to Ocean Park. I won a lot of toys. My grandpa and grandma also came in to join our dinner.

I was very surprised and happy. Do you know which day is my birthday? ☺

### When I Was Little

When I was a little baby, I had a round face, big eyes and big ears. I had a small mouth too. I think I was cute. I always played with my elder brother before I went to kindergarten.

I could wee and poo by myself when I was ten months old. My mum said I was smart. I could get dressed by myself when I was four. But I let my grandmother help me to do it. I was cunning! (XD)

When I was five, I participated in a solo verse competition. I practiced very well at home. However, during the competition when I was standing on the stage, I didn't say a word. So I got zero marks. The judges told me to be brave next time. I think I was very nervous at that moment.

When I was little, I did a lot of funny things. Now I don't do these silly things much because I have grown up.
