Hoi Ha School Visit

Last Friday, I visited Hoi Ha Wan Marine Park with my classmates. I had an unforgettable trip.

At first, we followed Mr. Chow to Hoi Ha Village. There was a tour guide called Cindy. She told us about the rules that we ought to follow. After five minutes, we arrived at the beach. I cleaned the beach and took some shells with Tom. Cindy told us that we should finish this task within fifteen minutes. Tom and I found some rubbish like plastic bottles and tin cans. They were a little bit smelly. Three minutes later, we found a clam on a rock. It was still alive so I took some pictures of it. At that moment, it pooped on the rock. Therefore, we laughed.

After cleaning the beach, we had a ride on the glass boat. On the boat, we couldn't see the coral and fish well because the sea was dirty. At last, we went home a little bit disappointed.

I was delighted to join this trip because I gained a lot of knowledge about nature.

Christmas Holiday

This year's Christmas was unusual. I have received a lot of presents and some Christmas cards. I've done lots of great things too!

I've received 3 Christmas cards - from Hayley, Valerie and Priscilla. The biggest one is from Priscilla. It's the biggest one I've ever seen! I like Valerie's drawing. She drew a Christmas tree for me. I've received 5 presents. The biggest present is called 'Aqua beads'. It's a handicrafts making toy. I like it very much!

I've done a lot of things besides unwrapping the presents. In the morning, I played games with my neighbour. Next, I went shopping with my mum. The shopping centre was decorated with Christmas decorations. It was very beautiful. At night, my family and I ate a lot of delicious food.

I wish next Christmas can be a usual Christmas, so I can have a gathering with my friends.
