The Special Holiday

During this special holiday, I have done a lot of meaningful activities. They have helped me grow.

I go to the park on Sundays to do exercises. I often play badminton with my brother, and I ride my bicycle there. I can become healthier by doing sports.

Also, I always cook breakfast by myself, such as noodles and pancakes. I wash the bowls after cooking. Then I clean the floor and fold the clothes.

I do the English project with my classmates. I am surprised to be a group leader. I learned how to work with others on this English project.

I watch English movies, so I can learn English. I enjoy reading English books too, because I can learn a lot of knowledge.

I like this holiday. But I wish the pandemic will end soon.

Mum's Purse

Yesterday morning, Mum and I went to the grocery store. We bought a lot of things, such as potato chips, candies, apples, oranges and a bag of rice.

Then we went to pay at the cashier. Mum took out the money from her purse. She put the purse on the cashier desk when she was paying.

When we returned home, Mum was looking for her purse because her house key is in the purse. Suddenly she realised that she had left her purse at the cashier desk and didn't get it back! Luckily, the grocery store cashier had found it and gave it back. Mum was thankful.
