### **When I Was Little**

When I was five years old, I was very, very cute. At that time I liked to play with my cousin, Yue Qi. We used to play card games and computer games together a lot.

I could pack my school bag by myself when I was five. I couldn't tie my hair by myself. My mom helped me tie my hair.

When I was five years old, it was my first attempt to paint. I splashed the paint all over my body. My mom saw it and felt very angry, but she thought I was still young after all, so she didn't scold me.

### Which Restaurant?

Tom and Sally wanted to find a place for lunch. They surfed the Net to find out the prices and customer reviews of different restaurants. According to the prices, Moon Restaurant was the most expensive and Queen's Restaurant was the cheapest. At last, they decided to go to Queen's Restaurant because it was cheap.

At the restaurant, they looked at the menu. "What would you like Sally?" Tom asked. "Hmm..." thought Sally. "I'd like chicken curry with rice, because it's the most popular." They both ordered chicken curry with rice.

Ten minutes later, there was a small fly on Sally's dish. They were frightened. "Ahhhhh!" Sally yelled. "Don't worry Sally!" Tom said. "I'll help you."

Tom helped Sally to get rid of the fly. The dish was dirty therefore, they threw the dish away. They learned that they should consider the cleanliness of the restaurant and not just the price.
