This is my monster, Rainbow Ashley. My monster is half a cat and half a rat. Rainbow Ashley is grey but has a pair of cat paws and cat whiskers. She also has a long rat tail and a tongue that can change colour! In short, Ashley is a tiny cat headed furball with a rat tail! She often gives me the creeps!

Rainbow Ashley is hard to please. She eats all sorts of stuff but mainly black things. I discovered that when she ate all my black chessmen! I am still furious about that.

Ashley has her own compartment! She lives in a huge transparent water bottle in my cupboard, I don't let her out often because she will gobble our black sofa, crunch my new set of black chessmen and even try to nibble my own hair! I suppose I would need to wear a brown wig and store away my black things before letting her out.

Rainbow Ashley is as loyal as a dog. She

scares away every thief with her silly look and her strange tongue. What a cool monster!

Oh, Rainbow Ashley, you greedy little monster. You are scary but harmless, silly but loyal.

## An Exciting Adventure

Today I got lost when I went to a mysterious island. I went through the Rainforest, the Crocs Pond and the War Volcanoes. Finally I arrived at The Sea.

I saw some pirates leading five enormous hyenas towards me! I was frightened and terrified. What should I do? I ran and ran. Suddenly, I accidentally tripped over a huge, sharp rock! "Aargh!!" I cried. The hyenas heard my voice and ran quickly towards me! I ran to my race car and drove away. But the hyenas were still chasing after me, and the pirates were riding them! They pulled out their swords and guns. Their leader cried "FIRE!!" And a BOOM shook the Earth! I pulled out my sword and shield. I saw millions of bullets and knives flying towards me! Thong! A sharp knife flew past me. Phew!

Finally, I saw that the hyenas were tired. They stopped running! "We will be back!!" cried the frustrated pirates and they disappeared into the sunlight. Hurray! I hoped that I wouldn't see those pirates again!
