The Best Country I've Been To

I am the official student to have been on the most airplane rides. I've been on airplane rides 57 times and I've been all over the world. So let me a talk about my dream country - China.

Well, I believe no one expected me to answer China; but it is certainly the best.

China is huge. It is about 8,680 times bigger than Hong Kong. It crosses temperate monsoon climate, subtropical monsoon climate, tropical monsoon climate, tropical rainforest climate, temperate continental climate and plateau mountain climate. Therefore it is full of different natural features. Although some may not be as astonishing as the same kind in other countries, there are probably more kinds than other countries. For example, Wulong Karst Tourist Area, Wushan Small Three Gorges, Dazu Rock Carvings, Youyang Peach Blossom Spring Scenic Spot and Black Mountain Valley in Wansheng District. These are only a part of many wonders.

The food in China is also very different from other places. Because China is so big, the food from different parts of the country is very different. There are Sichuan, Cantonese, Shandong, Su, Zhejiang, Henan, Fujian, Anhui, Hunan and Chu cuisines.

Finally, the landmarks in China are very popular because Chinese culture has a very long history. Here are ten of them: Forbidden City in Beijing, The Bund in Shanghai, Lhasa in Tibet, Suzhou, Confucius Temple in Nanjing, Big Wild Goose Pagoda in Xian, People's Great Hall in Chongqing, Bank of China Tower in Hong Kong, Ace in Shenzhen, Sanba Square in Macau.

That's why I think China is the best country in the world.

A Letter to Doctors and Nurses

Dear Doctors and Nurses,

How are you? COVID-19 wreaks havoc in Hong Kong, and fortunately, all of you heal patients with all your might. Your act is admirable!

Although many patients died in this pestilence, you still exert yourself to heal the patients and fight against the virus. Some of you have sacrificed a lot over this period of time. All the Hong Kong citizens hold you in great esteem.

The COVID-19 is the deadliest virus, but if we work together to fight against it, we will succeed.

Lastly, I am grateful for all the hard work and dedication of the doctors and nurses. I want to say two words to you all - 'Thank you!'

Yours sincerely,

Marcus
