

A Robbery

Last Thursday evening, there was a robbery at Moon Restaurant. There weren't many people since it was already a quarter to eight. The cashier, Doris, was talking on the phone when a robber pointed a knife at her. 'Give me the money!' he shouted. Doris was scared and ran into the shop. The manager, Mr Wong, was alarmed but stayed calm. He told Doris to keep quiet and walked to the alarm.

Mr Wong set off the alarm and dialed 999. The robber was taking out some money from the cash register when he heard the alarm wailing. He was nervous so he zipped up his bag and got ready to escape.

The police arrived while the robber was escaping on a motorbike. 'Help!' Doris shouted, 'catch the robber!' The police shouted, 'stop robber!' They chased the robber using Mr Wong's car. The robber was running into the building when the police caught him with a pair of handcuffs.

The robber was trying to escape into his flat when he tripped and scraped his knee. He stood up and ran into his room so the police didn't know where he went. Soon, the police saw the robber through a window and arrested him. The robber went to jail with the police. Mr Wong and Doris were relieved because they had the money back.

The robber's family was poor and his parents were sick so he had to make money quick. He still didn't have enough money to take his parents to hospital so he decided to steal money. He learnt that he should earn money the correct way.

Now, he works hard as a waiter for Moon Restaurant.

A 2-day tour in Macau

I went to Macau with my parents. First, we went to our hotel to deposit our luggage. Then we went to an indoor playground at the hotel called "Colourful Paradise". There are many things to play inside. It has five different areas. The first area is the "Seabed Area". It has 50 sets of games and thrilling free-fall mobile games up to five meters away! The second area is the "Mountain Rock Area". It can test your balance with climbing challenges, across different levels of difficulty and even climb to a top height of more than 6 meters! I was afraid of playing here because I have a fear of heights. The third area is the "Jungle Area". It has three large tree houses connected by knotted rope bridges, four-meter high slides and electric racing adventures. It was fun! The fourth area is the "Space Station Area" and the fifth area is the "Outer Space Area"!

We played at this playground on our first day in Macau. We were tired because we played like crazy!

We rode a giant figure 8 ferris wheel. I saw some famous hotels, like the Londoner Macau, the Venetian Macau and the Parisian Macau. It was great! Then we went to Studio City Water Park Outdoor Park to play.

The 20-meter-high "Sky Waterspout" has 5 waterslides; multiple slides, waterfalls and 62 water spots. Although it is high, I gathered my courage to play on the waterslides. The "Golden Bucket" was also a scary ride. You will be dumped off at regular intervals! I shouted loudly when I was on this ride because it was very scary. You will understand if you ever go on it!

We came back yesterday night. It was so fun! I hope I can go back there again!
