

My Easter Holidays

This Easter holiday, my family and I went to Singapore. We had a great time there.

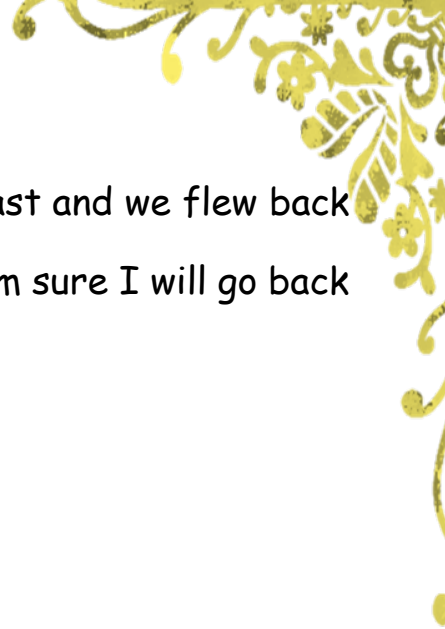

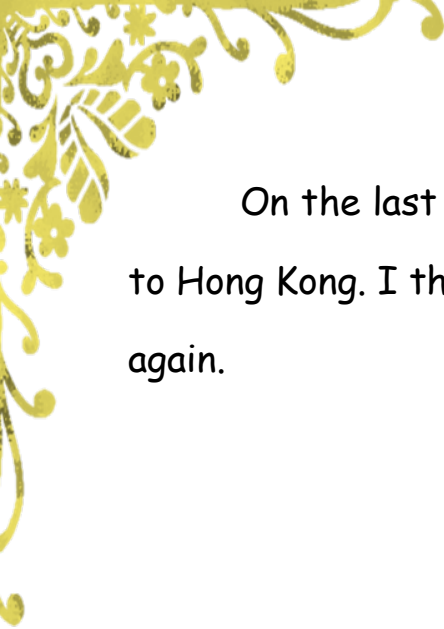

On the first day, after a four hour long plane ride, we finally arrived in Singapore. We took a taxi to go to our hotel, then we explored a little. In the afternoon, we had an early dinner at a food court. The chicken rice we had was delicious.

On the second day, we had a buffet for breakfast. Then we went to the Gardens by the Bay. We went to the Flower Dome and the flowers were really beautiful. There were even Singapore students going on a field trip there too. Afterwards, we had McDonald's for lunch.

On the third day, we went to a zoo. It was 32 degrees celcius on that day, and after only five minutes, I felt so hot that I almost melted ! We saw a lot of animals and I took tons of pictures. I was so hungry at that time. Then I had lunch at KFC with my dad and Mum played in the water park with my brother. They didn't feel hungry at all.

On the fourth day, we went to the cinema to watch the new Super Mario movie. I enjoyed watching it very much. Afterwards, I had dinner with my dad's friends. We had dinner at a hawker centre and the food was very yummy !

On the fifth day, we went swimming in the morning. Then we rushed back to our hotel room and took a shower. Later we checked out in a hurry because we were moving into the house of my dad's friend. The house was so big that I almost got lost a few times.

On the last day, we had some local food for breakfast and we flew back to Hong Kong. I think Singapore is a great country and I am sure I will go back again.

A New Character In A Video Game

I know a few video games that are interesting and fun. The name of the video game is 'Harry Potter: Magic Awakened'. This is a video game that my friend introduced to me. Other than playing, you can also watch movies about Harry Potter.

The new character I want to create in the Harry Potter game is a fire dragon. I want to create it because I think a fire dragon in Harry Potter's adventure will be more exciting. The fire dragon will look scary. It has flames around its neck and long fur around its body. It also has sharp claws that will frighten you, sharp teeth like a sword and blue eyes like freezing ice. It has different powers like fireballs, fiery fangs and making fire rain. The fire dragon will appear to destroy the city but some heroes will stop it in the end.
